

Dear Dan,

I wanted to start by saying thank you for the incredible opportunity you gave me this past summer at Geo-Solutions. My internship experience was not only a memorable one by meeting so many great people, but also an incredibly informative experience as well. I can't thank you and everyone else in the New Kensington office enough for making me a part of the company for the summer.

Before this summer I can honestly say I had little knowledge of the geotech field in civil engineering. What I found the most beneficial was seeing the responsibilities and issues real world engineers encounter on a daily basis.

In my time outside from the office, everything I heard about this company has been nothing but great things, from taking care of your employees to the great work you do. So besides the good times, early mornings, and informative knowledge, I can say honestly that this internship has proved to be so impactful to the start of my engineering career. I just wanted to say thank you again for a summer I won't forget.

-Dane Woo
